EXCITING THINGS ARE HAPPENING, NEW CLUBS, NEW CLASSES AND SEW MUCH MORE!

It's been a busy first 6 months of Club, YouTube, & QBOT

Among our special guests, we have been privileged and honored to teach you the things you have been asking for. Here is a recap of what we have covered in QBOT Club the past 6 months. June was all about recording with special guest Cheryl Barnes, and July was learning to texturize with QBOT. In August, Cheryl returned to show us how to

audition our quilts before putting them on the frame. September was a little out of the box for some of us with thread painting and raw edge appliqué. In October, Shelley demonstrated a wonderful quick project with placemats. In November, it was all about software with Corel Draw, Creative

DRAWings, Electric Quilt, 4D Quilt Design Creator, and more.

What would you like to see in 2001? Please email your suggestions to denise@myQBOT.com.

We want to hear from you. Tell us what your dreaming to see!

The compatibility list is growing. We are testing and writing instructions for new setups with QBOT. QBOT works with many mid-arm sewing machines. Check the list on the support page at myqbot.com.

Upcoming Website Addition

Every quilter is an inspiration to someone. Your quilted projects can inspire us and other quilters with new ideas, tips, and tricks. The result is in the smiles we see, laughter we hear, and love we feel when we share our "gifts" with others.

In the near future, we'll be adding a gallery to myQBOT.com. Please send us photos of what you have quilted with QBOT, your studio, and your favorite recipient with the quilt/project ... you get it! Give us a sentence or two about you, your quilt, etc. We'll post them in the gallery so others can enjoy them, and smile, and laugh too.

Many of you have already sent us photos of the beautiful quilts that you have created and quilted with QBOT. Thank you so much for giving others the opportunity to see what you have made. Here are a few projects you have shared with us already!
